

## **Bali Pool League – Seminyak/Kuta Bar Owners Charter**

### **Welcome to the League!**

This isn't the pro-circuit with angry stares, thousand dollar cues, or people who sulk for a week after losing a frame. We took the best bits from every league we know about and tweaked them to make a new league designed to create a fun, friendly atmosphere.

Here's what we're all about:

#### **1. Serious pool, relaxed vibes**

Games are played properly and competitively...until someone cracks a joke, buys a round, or celebrates a glorious fluke like it was intentional. In between shots, cheering or boo'ing and making as much noise as you want is actively encouraged!

#### **2. Travelling nights out**

One week home, next week away – new bars, new faces, new favourite cocktails. Bring as many team members and friends and turn the league night into the best night of the week.

#### **3. Zero ego, maximum laughs**

Clear the table in one go? Legend. Pot the white off the black and lose the game? Also Legend. Same cheer for both

#### **4. The Rules**

They're there to protect the good times. Not every rule will be your favourite. We get it – some of you love handicaps, some hate them: some want strict timing, some want another beer first. We can't make everyone 100% happy 100% of the time, but every rule is there for one reason: to keep the league fun, fair, and full of good people.

## **5. Player conduct**

This league is deliberately different to what a lot of you have experienced. That's the whole point.

So if something isn't exactly how your old league did it, take a breath, smile and roll with it.

No negativity, no drama, no 'back in my day' speeches, bring positivity, bring banter and that's it.

**In a nutshell:**

**We play real pool, but we're here for the good times, new friends, and nights you don't want to end.**

**Bring your cue, bring your sense of humour and help make this the most enjoyable league you've ever been part of.**
