2. General Rules of Play

- Black ball placed on the spot when racking up.
- If the White ball potted on the break, free ball given, taken from behind the line and shot down the table.
- A minimum of 3 balls must hit the cushion, or at least one ball potted for the break to be legal (this is a variation of International Rules to fit ‘The League’ format).
- Black ball potted off the Break, balls are re-racked and the same player breaks again, in-line with International Rules.
- International Rules in place for all other game play.
- If a player clears all balls from the Break and opponent does not get one shot, the game result is valid. (In-line with International Rules).

- A maximum of 13 players can be chosen from each team to play.
- A minimum of 6 players from a team must turn up otherwise games will be forfeited.
 - Singles – 3 players = 2 games (4 frames) each + 1 player = 1 game (2 frames)
 - Doubles – 4 singles players plus 2 additional players.
- Referees and Team Captains to maintain a sense of order around the pool table while games are being played so no disruption to players occurs.
- No coaching allowed, in-line with normal competitions.
- Bar Owners, Team Captains and Players are encouraged to play and act in the spirit of the league, with enjoyment, fairness, honesty and inclusiveness for all involved.

3. Competition Format and Scoring system:

Single, 7 matches:

- Best of 2 games
- Win 2–0 → 3 points per team and per player
- Draw 1–1 → 1 point per team and per player
- Maximum 2 matches per player

Double, 3 matches:

- 1 game only
- Each doubles pair must be different
- Alternating shots
- Win = 2 points for the team, 1 point per player
- Doubles scores do not contribute towards a players Handicap

Team getting the most point on the competition will get an extra 3 points. If draw between the team, no extra point.

4. Player Selection Procedure

- At the start of each Competition, the Away Team captain selects the first player to represent his team in the opening singles match.
- The Home Team captain then selects the opposing player for that match.
- This selection process alternates for every following singles match—one match chosen by the Away captain, the next by the Home captain, and so on.

5. Handicap System

A. Overview

Season 2 introduces an individual handicap system designed to balance competition and reward consistent performance.

- Handicap applies only to singles matches (not doubles).
- Handicap levels range from:
 - Level 0 – Highest performance
 - Level 1
 - Level 2
 - Level 3 – Lowest performance

B. Determining Handicap

- Player handicaps for Season 2 are based on Season 1 individual performance data.
- New players entering Season 2 are automatically assigned Level 1.
- At the end of each season, results from all seasons combined ($S1 + S2 + \text{future seasons}$) will be used to adjust handicap levels for the following season.
- The League will continually monitor handicaps and if necessary, in a rare case, will be able to adjust HC.
- Doubles games do not contribute to handicap levels.

C. Handicap Advantage Rules

C.1 Ball Advantage

The handicap difference between players determines the starting advantage:

- 1 level difference = 1 ball advantage
- Maximum handicap advantage = 3 balls

Example:

- A Level 3 player vs a Level 0 player = 3-ball advantage for Level 3

C.2 How Advantage Balls Work

- A player receiving a handicap advantage has the option to use the handicap or decline it.
- The Referee will advise of handicaps at the start of each singles match.
- When the lower handicap player has the same number balls left as their handicap advantage they can declare to use their handicap,
- If the handicap is applied the relevant amount of balls will be removed from the table and the player can shoot for the Black ball.
- If the player misses the Black ball, play continues as normal.
